

MEHUL ARORA

SOFTWARE ENGINEER

Faridabad, India | mehularora505@gmail.com | [GitHub](#) | [Twitter](#) | [LinkedIn](#) | [YouTube](#) | mehularora.dev

PROFESSIONAL SUMMARY

Full Stack Developer specializing in backend engineering, scalable systems, and real-time architectures. Experienced in building high-performance web applications using Node.js, Express, Redis, and WebSockets while optimizing database queries for high efficiency.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), SQL, HTML5, CSS3
- **Backend & Tools:** Node.js, Express, Redis, WebSockets, REST APIs, Git, npm
- **Frontend:** React.js, Tailwind CSS, HTML, CSS
- **Databases:** PostgreSQL, MongoDB

PROJECTS

Arbiter | *PostgreSQL, Node.js, NextJS, OAuth, OpenAI, Gemini SDK* [\[GitHub\]](#) [\[Live\]](#)

- Architected a multi-model Self-Consistency LLM Agent that evaluates responses across diverse AI engines to generate optimized user answers.
- Implemented completely isolated contextual conversational history threads, ensuring distinct memory boundaries per active session.

Personic | *OpenAI Agent SDK, HTML5, CSS3, JavaScript* [\[Live\]](#) [\[GitHub\]](#)

- Built responsive, interactive web games using vanilla JavaScript, engineering localized algorithms for win-path validation and optimized engine loops.
- Designed UI architecture leveraging dynamic CSS custom properties and flexible grids for multi-platform device alignment.

TalwinderCSS | *NPM Engine, HTML5, CSS3, JavaScript* [\[Live\]](#) [\[GitHub\]](#) [\[NPM\]](#)

- Engineered a highly customized, humor-infused open-source functional utility CSS tool published directly onto the public NPM dependency registry.
- Mapped customized utility structures using explicit alias classes targeting cross-browser style components.

1 Million Checkboxes | *React, Node, Express, Redis, WebSockets* [\[GitHub\]](#) [\[Live Demo\]](#)

- Scaled a collaborative real-time grid application supporting 1 million checkboxes concurrently with sub-millisecond updates.
- Integrated Redis for memory-efficient state management, pub-sub messaging, and rapid atomic key-value operations.
- Architected WebSockets connection pooling and broadcast pipelines to manage thousands of concurrent client updates with minimal latency.

EDUCATION

JC Bose UST (YMCA) | Bachelor of Technology (B.Tech) in CSE [\[Expected Graduation: June 2029\]](#)

Faridabad, India | First-year coursework focuses on Computer Science foundations, database engineering, and algorithms.

CERTIFICATIONS & ACHIEVEMENTS

Zenith 5.0 Hackathon Certificate | unstop.com [\[Verify Credential\]](#)

Participated in the Zenith 5.0 hackathon at JC Bose UST, building real-time collaboration tools.
